What people say about us

Over 10 million clients worldwide put their trust in us and make money every day.

We can better our platform and give you the greatest trading experience possible by incorporating your input. Browse ratings and add your own recommendations. We value your opinions!

Trading has been a hobby of mine for the last decade, mostly having fun but could not get any consistent returns. However, since I have found it, I believe it will become fulltime for me. The automated trading approach taught here is straightforward with clear entries and exits.

Also, it is simple to execute and that makes all the difference for consistent success. I started with the swing trade strategy and look forward to mastering others. Only wish I had found them sooner."
